## What is this product?

**Type**

Janus Henderson Horizon Sustainable Future Technologies Fund is a sub-fund of Janus Henderson Horizon Fund, an open-ended investment company organised under the laws of the Grand Duchy of Luxembourg. Janus Henderson Horizon Fund qualifies as an undertaking for collective investment in transferable securities (UCITS).

**Term**

This investment has no maturity date. The Manufacturer has the right to terminate the product in a limited number of circumstances, as set out in the Prospectus.

**Objectives**

The Fund aims to provide capital growth over the long term (5 years or more) by investing in technology-related companies that contribute to the development of a sustainable global economy. The Fund invests at least 90% of its assets in shares (equities) or equity-related securities of technology-related companies, whose products and services are considered by the Investment Manager as contributing to positive environmental or social change, thereby having an impact on the development of a sustainable global economy. The Fund's investment universe is defined by technology-related companies that derive at least 50% of their current or future expected revenues from the sustainable technology themes identified by the Investment Manager (as further outlined in Investment Strategy section). The Fund will avoid investing in companies that the Investment Manager considers could contribute to significant environmental or societal harm.The Fund may invest in companies of any size in any country.

The Fund may also invest in other assets including investment grade government bonds, cash and money market instruments. The Investment Manager may use derivatives to reduce risk or to manage the Fund more efficiently. The Fund is actively managed with reference to the MSCI ACWI Information Technology Index, which is broadly representative of the companies in which it may invest, as this can provide a useful comparator for assessing the Fund's performance. The Investment Manager has discretion to choose investments for the Fund with weightings different to the index or not in the index, but at times the Fund may hold investments similar to the index. The Investment Manager will seek to promote environmental, social and/or governance (ESG) principles in managing the Fund, which may include the exclusion of issuers that the Investment Manager considers could contribute to significant ESG harm, as further described in the prospectus. The Fund promotes environmental and/or social characteristics as defined under Article 9 of the Sustainable Finance Disclosure Regulation (SFDR). This share class accumulates income which is retained within the price of the share class. You can buy, sell or switch shares in the Fund on any dealing day, as defined in the Fund's Prospectus. The Fund's Depositary is BNP Paribas, Luxembourg Branch.

**Intended Retail Investor**

Investors who understand the Fund's risks, would like growth from a socially and environmentally conscious investment, and intend to invest their money for at least five years. This Fund is designed to be used only as a component in a diversified investment portfolio and is not designed for investors who are unable to accept more than a minimal loss of their investment.

## What are the risks and what could I get in return?

**Risk Indicator**

Lower Risk 1 2 3 4 **5** 6 7 Higher Risk

The risk indicator assumes that you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 5 out of 7, which is a medium-high risk class.

This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact the capacity of the PRIIPs manufacturer to pay you.

**If the product currency differs from your home currency, the following applies: Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.**

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Details of all relevant risks can be found in the Fund's prospectus, available at www.janushenderson.com

### Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

**Recommended holding period: 5 years**

**Example Investment: EUR 10,000**

| Scenarios | | If you exit after 1 year | If you exit after 5 years |
|---|---|---|---|
| Minimum | **There is no minimum guaranteed return. You could lose some or all of your investment.** | | |
| Stress | **What you might get back after costs** | 1,000 EUR | 860 EUR |
| | Average return each year | -90.01% | -38.75% |
| Unfavourable | **What you might get back after costs** | 6,260 EUR | 8,320 EUR |
| | Average return each year | -37.42% | -3.61% |
| Moderate | **What you might get back after costs** | 11,600 EUR | 22,690 EUR |
| | Average return each year | 15.96% | 17.80% |
| Favourable | **What you might get back after costs** | 15,230 EUR | 32,180 EUR |
| | Average return each year | 52.30% | 26.33% |

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable scenario occurred for an investment between October 2021 and December 2023.

The moderate scenario occurred for an investment in the benchmark between September 2014 and September 2019.

The favourable scenario occurred for an investment in the benchmark between June 2016 and June 2021.

## What happens if Janus Henderson Investors Europe S.A. is unable to pay out?

You may face a financial loss should the Manufacturer or Depositary, BNP Paribas, Luxembourg Branch, default on their obligations. There is no compensation or guarantee scheme in place which may offset, all or any of, this loss.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.
We have assumed:
- In the first year, you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

| | If you exit after 1 year | If you exit after 5 years |
|---|---|---|
| Total costs | 711 EUR | 3,824 EUR |
| Annual cost impact (*) | 7.1% | 3.7% each year |

*(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 21.5% before costs and 17.8% after costs.*

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

### Composition of costs

| One-off costs upon entry or exit | | If you exit after 1 year |
|---|---|---|
| Entry costs | 5.00% is the maximum amount you pay when entering this investment and you could pay less. If you invest through a third-party the person selling you the product will inform you of the actual charge. | Up to 500 EUR |
| Exit costs | A charge of up to 1.00% may apply where the Manager suspects excessive trading by an investor (and specifically on subscriptions held for less than 90 days). | 0 EUR |
| **Ongoing costs [taken each year]** | | |
| Management fees and other administrative or operating costs | 1.90% is the estimated cost of managing, administering and operating the Fund. | 190 EUR |
| Transaction costs | 0.21% is an estimate of the costs incurred when we buy and sell the underlying investments for the Fund. The actual amount will vary depending on how much we buy and sell. | 21 EUR |
| **Incidental costs taken under specific conditions** | | |
| Performance fees | We do not charge a performance fee for this share class. | 0 EUR |

## How long should I hold it and can I take money out early?
