This amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment, and may result in an immediate reduction of the sub-fund's net asset value per share.
- Some sub-funds may charge performance fees. An investor may be subject to such fee even if there is a loss in investment capital.

Notes to Class A5m:

[†]Interim Annualised Dividend Yield formula is used as there is insufficient historical data to apply the usual Annualised Dividend Yield formula. The usual Annualised Dividend Yield formula will be used after 12 months of dividends have been announced.

Interim Annualised Dividend Yield(%)=[1+(Dividend per share for relevant month/Ex-dividend price)]¹²-1)x100.
Positive distribution yield does not imply positive return.

Annualised Dividend Yield(%)=(The total amount of dividend distributed in past 12 months/Ex-dividend price)x100.
Positive distribution yield does not imply positive return.

Intended monthly dividend distribution by the Fund and its derived yield are not guaranteed and are subject to change at the discretion of the fund manager, without any prior notice. Past dividend distribution is not necessarily indicative of future or likely distribution.

Dividend distribution applies to holders of Distribution Shares (A5m) only. Dividend calculation dates are the last day of each relevant month.
