

Janus Henderson Investors Verification and Global Research Equity Composite Performance Examination Report

December 31, 2021

Verification and Performance Examination Report

Janus Henderson Investors

We have verified whether Janus Henderson Investors (the “Firm”) has, for the periods from January 1, 2018 through December 31, 2021, established policies and procedures for complying with the Global Investment Performance Standards (GIPS®) related to composite and pooled fund maintenance and the calculation, presentation, and distribution of performance that are designed in compliance with the GIPS standards, as well as whether these policies and procedures have been implemented on a firm-wide basis. GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein. We have also examined the Firm’s Global Research Equity Composite for the periods from January 1, 2008 through December 31, 2021.

The Firm’s management is responsible for its claim of compliance with the GIPS standards, the design and implementation of its policies and procedures, and for the accompanying Global Research Equity Composite’s GIPS composite report. Our responsibilities are to be independent from the Firm and to express an opinion based on our verification and performance examination. We conducted this verification and performance examination in accordance with the required verification and performance examination procedures of the GIPS standards, which includes testing performed on a sample basis. We also conducted such other procedures as we considered necessary in the circumstances.

In our opinion, for the periods from January 1, 2018 through December 31, 2021, the Firm’s policies and procedures for complying with the GIPS standards related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been, in all material respects:

- Designed in compliance with the GIPS standards, and
- Implemented on a firm-wide basis.

Also, in our opinion, the Firm has, in all material respects:

- Constructed the Global Research Equity Composite and calculated the Global Research Equity Composite's performance for the periods from January 1, 2008 through December 31, 2021 in compliance with the GIPS standards; and
- Prepared and presented the accompanying Global Research Equity Composite's GIPS composite report for the periods from January 1, 2012 through December 31, 2021 in compliance with the GIPS standards.

This report does not relate to or provide assurance on any specific performance report of the Firm other than the Firm's accompanying Global Research Equity Composite's GIPS composite report, or on the operating effectiveness of the Firm's controls or policies and procedures for complying with the GIPS standards.

Primary Benchmark: MSCI AC World Gross

Inception Date: August 1, 2007

Janus Henderson Investors claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. JHI has been independently verified for the periods January 1, 2018 through December 31, 2021.

A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. The Global Research Equity Composite has had a performance examination for the periods January 1, 2008 through December 31, 2021. The verification and performance examination reports are available upon request.

For the purpose of claiming GIPS compliance, Janus Henderson Investors defines its GIPS Firm as the following entities within Janus Henderson Group plc that directly manage assets: Henderson Global Investors Limited, Henderson Global Investors (Singapore) Limited (excluding private equity assets), Henderson Investment Funds Limited, Janus Capital Management LLC, Janus Henderson Investors (Australia) Funds Management Limited and Janus Henderson Investors (Australia) Institutional Funds Management Limited. The GIPS firm was formed on January 1, 2018 as a result of the merger of the predecessor GIPS firms Janus Capital Management LLC and Henderson Global Investors, which previously claimed compliance since January 1, 1994 and January 1, 2009, respectively. A list of composite descriptions, a list of limited distribution pooled fund descriptions, and a list of broad distribution pooled funds are available upon request. Policies for valuing investments, calculating performance and preparing GIPS Reports are available upon request.

The Global Research Equity Composite includes all fully discretionary, fee-paying accounts (excluding wrap accounts) invested in this strategy. Global Research Equity portfolios invest in high conviction investment ideas selected by the JHI research team, based on rigorous fundamental research. Investments will primarily be in large and mid size companies from around the world. The portfolios generally contain 80-120 securities and maintain sector weightings that closely follow the MSCI AC World Index. The composite was created in August 2007.

Account returns are presented both gross and net of management fees. All account returns are net of transaction costs and gross of non-reclaimable withholding taxes, if any, and reflect the reinvestment of dividends and other earnings. Monthly composite returns are calculated by weighting each account's monthly return by its relative beginning market value. All returns are expressed in U.S. dollars.

Benchmark returns are provided to represent the investment environment existing during the time periods shown. The index is fully invested, which includes the reinvestment of dividends and capital gains. The returns for the index do not include any transaction costs, management fees or other costs.

The dispersion of annual returns is measured by the asset weighted standard deviation of gross account returns represented within the composite for the full year. For those periods with five or fewer accounts included for the entire year, "n.m." is noted as the dispersion is not considered meaningful.

The three-year annualized ex-post standard deviation measures the variability of the monthly gross returns of the composite and the benchmark over the preceding 36 months.

The net returns shown are net of model investment advisory fees. Net returns are calculated monthly using the maximum fee rate in effect, adjusted for performance-based fees where applicable. Actual advisory fees can vary among clients invested in this strategy.

The current standard fee schedule for separately managed accounts is as follows: 0.60% on the first \$100 million; 0.50% on the next \$100 million; 0.47% on the next \$100 million; 0.45% above \$300 million.

Performance figures are based upon historical information and do not guarantee future results. Prospective clients should recognize the limitations inherent in composites, and should consider all information presented by JHI regarding the firm's investment management capabilities. Composite performance figures include changes in principal value, reinvested income and capital gains distribution.
