## NOTICE TO SHAREHOLDERS

18 November 2022

Dear Shareholder,

### **Changes applicable to – Janus Henderson Horizon Fund – Global Technology Leaders Fund in relation to its classification under SFDR**

*Unless otherwise defined herein, all other capitalised terms used herein shall bear the same meaning as capitalised terms used in the prospectus of the Company dated 1 October 2022. (the “Prospectus”).*

We are writing to you, a shareholder of the Company, to inform you that we intend to make changes to the description of the “Sustainability Approach” of Global Technology Leaders Fund (the “Fund”), aimed at removing the reference to being partially invested in “Sustainable Investments” within the meaning of Art. 2 No. 17 of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector, as amended (respectively, the “Change” and the “SFDR”), with effect from 23 December 2022 (the “Effective Date”).

#### **Background and details of the Change**

The SFDR sets out that firms are required to include sustainability-related disclosures in the fund documentation to provide further information for investors on, inter alia, sustainable investment objectives or on the promotion of environmental or social characteristics, the consideration of adverse sustainability impacts or on how investment managers consider sustainability risks in their investment decisions, and the likely impact on investment returns.

The Fund is currently classified under Article 8 as a fund that:

*“promotes, among other characteristics, environmental or social characteristics, or a combination of those characteristics, provided that the companies in which the investments are made follow good governance practices”*

While the Fund does not have as its objective sustainable investment, the Sustainability Approach details that it currently invests partially in sustainable investments.

A sustainable investment, as defined by the SFDR, is an investment in an economic activity that contributes to one or more environmental or social objectives, provided that such investment does not significantly harm any of those objectives and that the investee companies follow good governance practices (the “Sustainable Investment”).

It had been determined to remove from the binding elements of the Fund’s investment strategy the reference to partial Sustainable Investments and hence to no longer commit to such Sustainable Investments. This decision has been made to further differentiate the Fund from an Article 9 fund, which has as its objective Sustainable Investment, and is managed by the same investment team.

**Please note these amendments do not have a material impact on the Funds’ investment strategy, portfolio composition, or risk profile. There is no change to the Synthetic Risk and Reward Indicator of any of the Funds as a result of these Changes. Please see “Action Required by You” below for details on how to respond to these Changes.** There are no new fees, charges or increases

in existing fees or charges borne by the Fund because of this Change. There will not be material adverse impact on the rights or interests of the shareholders of the Fund. There will be no material change in the operation and/or manner in which the Fund is being managed.

### **Effective Date of the Change**

The Change will be reflected in the prospectus that is to be issued and the Change will be effective on the Effective Date or such later date as shall be notified to Shareholders.

#### **Action Required by You**

**PLEASE READ CAREFULLY AND CHOOSE ONE OF THE FOLLOWING OPTIONS:**

##### ***Take no action***

You are not required to take any action as a result of this Change.

##### ***Switch your Shares***

You may switch your Shares in the Fund into shares of any other sub-fund(s) of the Company free of charge on any on any Business Day prior to the Effective Date in accordance with the provisions of the Prospectus, provided that such an investment is permitted, including in your country.

The shares in the sub-fund(s) you specify will be purchased at the share price applicable to that sub-fund in accordance with the provisions of the Prospectus.

Before you switch into a new sub-fund, it is important that you read the Key Investor Information Document (“**KIID**”) of the new sub-fund, which are available as described below.

##### ***Redeem your Shares***

If you do not wish to remain invested in the Fund following the implementation of the proposed Change you may redeem your Shares in the Fund free of charge on any Business Day prior to the Effective Date by following the usual redemption procedures and terms as set out in the Prospectus. During such period, redeeming Shareholders will not be subject to contingent deferred sales charge, if applicable, provided they submit their redemption request in accordance with the provisions referenced above.

#### **Additional Information**

Any instruction to switch or redeem your Shares should be sent to the Registrar and Transfer Agent at the address indicated in Appendix B.

**A switch or redemption of your Shares may affect your tax position. You should therefore seek guidance from a professional adviser on any taxes that apply in the country of your respective citizenship, domicile or residence.**

Please note that for any dealing in the Fund prior to the Effective Date, the Directors have discretion to apply a dilution adjustment to reflect more fairly the value of the investments in circumstances the Directors consider appropriate, with the view to protecting the interests of remaining Shareholders. Any dilution adjustment, if applicable, will be applied in accordance with the provisions of the Prospectus and may lower the proceeds that you receive from the sale of your Shares in the case of Redemption, or the value of your Shares in the case of switching.

The Investment Manager is keeping this situation under active review and where sufficient reliable, timely and verifiable data on the Funds' investments should become available, the Investment Manager will provide the descriptions referred to above, in which case this Prospectus will be updated.

### **Investment strategy**

In order to meet the environmental and social characteristics promoted by the Fund, the Investment Manager applies binding criteria to the selection of underlying assets as part of its investment decision making process.

Investors should read this section in conjunction with the Fund's investment strategy (as set out in the section 'Funds' of this Prospectus).

The Investment Manager applies screens to exclude direct investment in issuers based on their involvement in certain activities. Specifically, issuers are excluded if they have any involvement with chemicals of concern or derive more than 5% of their revenue from the production of fossil fuels, nuclear weapons, tobacco, fur, alcohol, civilian armaments, intensive farming, nuclear power, gambling, pornography and animal testing (excluding medical testing). The Fund also applies the Firmwide Exclusions Policy, as detailed under paragraph 10.15 of the section entitled "Investment Restrictions".

The Investment Manager uses a fundamental, bottom-up investment approach to identify companies which benefit from long-term secular themes including those which promote the environmental and social characteristics. Such long-term themes include payment digitisation, internet transformation, resource optimisation and process automation, next generation infrastructure and smart cities. The Investment Manager believes these secular themes are often under-appreciated and can provide attractive end markets into which well-positioned companies can grow.

The Investment Manager assesses each company held by the Fund in relation to its impact on the environment and society in addition to an analysis of the governance risks it exhibits. The Investment Manager will only consider companies for inclusion in the Fund that systematically mitigate the environmental or social risks that can operationally harm a business.

A range of environmental and social data is collected and monitored by the Investment Manager as part of its investment process. However, the Investment Manager, recognises the limitations of static scoring of complex issues with imperfect data and disclosures with varying methodologies.

Companies that the Investment Manager believes may be facing potential environmental or societal issues are subject to active engagement, the exercise of voting rights, and the proposal of action plans (where appropriate), in

if they have any involvement with chemicals of concern or derive more than 5% of their revenue from the production of fossil fuels, nuclear weapons, tobacco, fur, alcohol, civilian armaments, intensive farming, nuclear power, gambling, pornography and animal testing (excluding medical testing). The Fund also applies the Firmwide Exclusions Policy, as detailed under paragraph 10.15 of the section entitled "Investment Restrictions".

Companies that the Investment Manager believes may be facing potential environmental or societal issues are subject to active engagement, the exercise of voting rights, and the proposal of action plans (where appropriate), in order to identify sustainability risks and help influence remedial change.

The Investment Manager may include positions in the Fund that meet the above exclusionary criteria where the Investment Manager believes that the data used to apply the exclusions is insufficient or inaccurate.

If the Investment Manager has concerns that a company is failing to sustain appropriate environmental and/or social credentials, it may engage as described above and/or divest.

Furthermore, the Investment Manager carries out its review from an ESG perspective (i.e. 'extra-financial analysis') on at least 90% of the securities to be invested in by the Fund.

The Fund does not have as its objective sustainable investment but promotes environmental and/or social characteristics (referred to above).

Investors should note that a specific index is not designated as a reference benchmark to determine whether the Fund is aligned with the environmental and/or social characteristics promoted.

*The Fund does not have as its objective sustainable investment but promotes environmental and/or social characteristics (referred to above). Where the Fund holds assets that qualify as sustainable investments, the Investment Manager will, according to the "Do no significant harm" (DNSH) principle (as provided for under the SFDR), indirectly consider potential negative impacts of its activities on sustainability factors relating to environmental and social matters.*

Investors should note that a specific index is not designated as a reference benchmark to determine whether the Fund is aligned with the environmental and/or social characteristics promoted.
