

KEY INVESTOR INFORMATION

This document provides you with Key Investor Information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Janus Henderson Horizon Fund

Global Sustainable Equity Fund Class HB2 EUR ISIN: LU1984711942

A sub-fund of Janus Henderson Horizon Fund, a Luxembourg SICAV managed by Janus Henderson Investors Europe S.A.

Fund Currency: USD Share Class Currency: EUR

Objective and investment policy

Objective

The Fund aims to provide capital growth over the long term (5 years or more) by investing in companies whose products and services are considered by the Investment Manager as contributing to positive environmental or social change and thereby have an impact on the development of a sustainable global economy.

Investment policy

The Fund invests at least 80% of its assets in shares (also known as equities) of companies, of any size, in any industry, in any country. The Fund will avoid investing in companies that the Investment Manager considers to potentially have a negative impact on the development of a sustainable global economy. The Fund may also invest in other assets including cash and money market instruments.

The Investment Manager may use derivatives (complex financial instruments) to reduce risk or to manage the Fund more efficiently.

The Fund is actively managed with reference to the MSCI World Index, which is broadly representative of the companies in which it may invest, as this can provide a useful comparator for assessing the Fund's performance. The Investment Manager has discretion to choose investments for the Fund with weightings different to the index or not in the index, but at times the Fund may hold investments similar to the index.

Strategy

The Investment Manager, within its thematic framework of environmental and social themes and positive/negative (avoidance) criteria screening, seeks to construct a differentiated and well diversified global portfolio of companies, based on the belief that superior returns can be generated by companies that

are providing solutions to environmental and social challenges. The Fund has a bias towards "growth" equities. The "growth" approach emphasises investments in companies the relevant Investment Manager believes have the potential for above-average earnings growth. These companies should have attractive financial attributes such as persistent revenue growth and durable cash flows, as well as exhibiting strong management of environmental, social and corporate governance risks. Companies will typically be strategically aligned with themes such as climate change, resource constraints, growing populations, and ageing populations. The Fund avoids investing in fossil fuels and companies that stand to be disrupted by the transition to a low-carbon economy.

Other Information The Investment Manager will seek to promote environmental, social and/or governance (ESG) principles in managing the Fund, which may include the exclusion of issuers that the Investment Manager considers could contribute to significant ESG harm, as further described in the prospectus.

Distribution policy This share class accumulates income which is retained within the price of the share class.

Recommendation This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

The Fund is designed to be used only as one component of several in a diversified investment portfolio. Investors should consider carefully the proportion of their portfolio invested into this Fund.

You can buy, sell or switch shares in the Fund on any dealing day, as defined in the Company's Prospectus.

For an explanation of some of the terms used in this document, please visit the glossary on our website at www.janushenderson.com.

Risk and reward profile

The value of an investment and any income from it can go up or down. When you sell your shares they may be worth less than you paid for them.

The rating above is based on simulated historic volatility. Historic data may not be a reliable indication of the future risk profile of the Fund. The rating is not guaranteed and may change over time.

The share class appears at 6 out of 7. Share classes in higher categories have shown greater and/or more frequent variations in Net Asset Value in the past five years than those in lower categories. The lowest category does not mean risk free.

Other material risks not captured by the rating:

Equities Shares/Units can lose value rapidly, and typically involve higher risks than bonds or money market instruments. The value of your investment may fall as a result.

Smaller Companies Shares of small and mid-size companies can be more volatile than shares of larger companies, and at times it may be difficult to value or to sell shares at desired times and prices, increasing the risk of losses.

Investment Style - Growth The Fund follows a growth investment style that creates a bias towards certain types of companies. This may result in the Fund significantly underperforming or outperforming the wider market.

Sustainable Investment The Fund follows a sustainable investment approach, which may cause it to be overweight and/or underweight in certain sectors and thus perform differently than funds that have a similar objective but which do not integrate sustainable investment criteria when selecting securities.

Derivatives The Fund may use derivatives with the aim of reducing risk or managing the portfolio more efficiently. However this introduces other risks, in particular, that a derivative counterparty may not meet its contractual obligations.

Exchange Rates If the Fund holds assets in currencies other than the base currency of the Fund, or you invest in a share/unit class of a different currency to the Fund (unless hedged, i.e. mitigated by taking an offsetting position in a related security), the value of your investment may be impacted by changes in exchange rates.

Liquidity Securities within the Fund could become hard to value or to sell at a desired time and price, especially in extreme market conditions when asset prices may be falling, increasing the risk of investment losses.

Counterparty Risk and Operational Risk The Fund could lose money if a counterparty with which the Fund trades becomes unwilling or unable to meet its obligations, or as a result of failure or delay in operational processes or the failure of a third party provider.

For more information please see the Company's Prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of managing and distributing it. These charges reduce the potential growth of your investment.

If you invest through a third party provider you are advised to consult them directly as charges, performance and terms and conditions may differ materially to those shown in this document.

One-off charges taken before or after you invest*

Entry Charge	5.00%
Exit Charge	0.00%**

* The charges shown are maximum figures. In some cases you may pay less.

** Subject to a charge of up to 1.00% where the Manager suspects excessive trading by an investor (and specifically on subscriptions held for less than 90 days).

Past performance

Charges taken from the Fund over a year

Ongoing Charges	0.81%
-----------------	-------

The ongoing charges are based on actual annualised expenses for the period ending 30 June 2023. Ongoing charges may vary from year to year.

The figure for ongoing charges excludes portfolio transaction costs, except in the case of an initial charge paid by the Fund when buying shares or units in another Fund.

For more information about Charges please see the Company's Prospectus.

The past performance is calculated in EUR.

The Fund was launched in May 2019 and the share class was launched in October 2019.

Past performance does not predict future returns.

The past performance takes into account all charges except one-off charges.

The Fund does not aim to track the performance of the benchmark.

*Class HB2 EUR was launched in October 2019. Performance prior to that date is simulated past performance based on the Class I Acc EUR of the equivalent UK Fund which reflects a different ongoing charge which was 0.81% for the period ended March 2019.

Practical information

Depository: BNP Paribas, Luxembourg Branch

To obtain more information: This Key Investor Information Document may not contain all the information you need.

For the last published price of shares in the Fund or any additional information on the Fund, or to obtain the Company's prospectus or the annual/semi-annual report, please visit www.janushenderson.com.
